

The background of the advertisement is a vertical split image of two gourmet dishes. The left side shows a white plate with a delicate, orange-brown fried element, a purple flower, a strawberry, and a small red berry, all garnished with fine white crumbs. The right side shows a white plate with a vibrant purple soup or sauce, topped with a piece of seared fish, a green pea sprout, and dark berries.

Frozen desserts in fine dining

Gelato Table. Drawing. Project realized in Rome on 28 August 1714 for the birthday of Elizabeth Christine of Austria.

Gelato started out on the table as a fine dessert in the European Courts of the Renaissance. Magnificent edible sculptures adorned with fruit sorbets, or elaborate molds filled with Ice Cream flavored with flowers and spices adorned banquets in honor of Royal rulers of Europe, and then transported to the Americas by the Founding Fathers. The first known recorded writing of Ice Cream in America is in 1744 when Maryland Governor Thomas Bladen served it. President Thomas Jefferson brought back an Ice Cream churner to Monticello from his European travels. Early American frozen dessert recipes even included savory dishes such as Oyster Ice Cream. Today frozen treats are back on the fine dining table thanks to the skill of chefs, pastry artisans and Carpigiani Technology: a whole range of machines that can offer solutions for every need.

Freeze&Go

Wow customers with freshly made Gelato or Ice Cream, right in front of their eyes

Small, silent, and fast. Create freshly made Ice Cream in a matter of minutes!

Carpigiani technology in 22 inches. Single phase electrical power and compact design allow you to add the freshest Ice Cream into any setting.

One removable cylinder for freezing, storing, and serving gelato.

It tells you when it has finished freezing and then maintains the gelato at the right consistency.

Practical and easy to clean.

Additional cylinders (optional) facilitate production.

It stops immediately if the protective lid is opened during freezing.

LB 100B

Compact batch freezer brings Carpigiani quality to the restaurant and catering world

Professional and reliable batch freezer create creamy Ice Cream, sorbets, and savory recipes to add new flavors to your menu. Ideal for restaurants and on-site catering.

Simply fill and turn on.

Thanks to the intelligent Hard-O-Tronic® system, the machines detect when the gelato has reached optimum consistency and maintains it until extraction.

Single-phase power supply and air cooled, they fit in easily with the other kitchen equipment.

Delayed cleaning program that guarantees hygienic safety thanks to temperature control.

The beater stops immediately if the protective lid is opened during freezing.

LB 200 Tronic G

Countertop batch freezer with consistency control for creamy low overrun Ice Cream & Gelato

Countertop Batch freezer for creamy low-overrun frozen desserts. Full size freezing chamber freezes up to 5 qts of mix per batch. Adjustable electronic consistency control ensures product consistency at different loads.

Thanks to the intelligent Hard-O-Tronic® system, the machines detect when the gelato has reached optimum consistency and maintains it until extraction.

Single-phase power supply and air cooled, they fit in easily with the other kitchen equipment.

Delayed cleaning program that guarantees hygienic safety thanks to temperature control.

The beater stops immediately if the protective lid is opened during freezing.

Ready G TRU-2

Modern Carpigiani model with programs for Ice Cream, Gelato and Frozen Pastry

Carpigiani in the world

Founded in 1946 in Bologna, Carpigiani quickly established itself internationally as a leader in the production of machines for artisanal gelato. Its investments are focused on research, design, and choice of components, to ensure adaptability to different production needs, ergonomic and practical use, operational safety, energy savings. All in compliance with the most strict food safety regulations.

Since 1989 Carpigiani is part of the Ali Group, which includes 79 prestigious brands of equipment for professional foodservice.

Carpigiani is not just technology: we believe in professional growth, and our instructors are available for group and individual lessons.

Our courses are focused on balancing recipes for restaurants and new techniques for storing mixes and gelato, adding them to the normal, everyday activities of a professional kitchen.

Since 2003, the school is recognized for training successful gelato entrepreneurs in 14 campuses worldwide. The mission is to teach the culture of quality artisanal gelato through complete training programs, combined with advanced teaching methods and a team of internationally renowned master gelato instructors.

Founded in 2003 alongside Gelato University, with the intention of providing training and courses for the North American entrepreneurs interested in wide variety of Frozen desserts ranging from Gelato, to ice Cream, and Frozen Custard to Premium Water Ice.

Founded in London in 2017 to provide group and individual lessons designed for chefs in food service and fine dining.

Since 2015, the school based in Tokyo has taught the unique training program, whose mission is to combine the best traditions of gelato with Frozen and Japanese pastry.
